SECO Engineering established in 2012 is a fully owned subsidiary of SECO Trading and Services WLL, poised to become most resourceful and sought out solution provider in Qatar market. We pride in our workmanship and services offered to our customers.

### **Mission**

To provide superior solution with matchless service and value to customers.

### **Quality policy**

Ethical practices in service on timely delivery, cost promise and product promise.

## Chairman's message

Hamad Thallab  
H A Al Hajiri

## SECO - Commitment to Innovation

A dream of many ideas coming together, with great passion and an opportunity seized is how SECO was born. Our aim at building SECO was to create an entity independent in all aspects of engineering and healthcare

field. We have been developing our divisions with immense speed and take great interest in the interests of our consumers and understanding their problems. We have designed SECO to be consumer oriented from the beginning. We are developing ourselves in order to be the one stop solution to every aspect. I believe that there is no short cut to achieve business goals with values like moral, ethics, honesty etc. I strongly believe in hard working, delivering promised work to customer and giving preference to customer satisfaction in achieving business success. As in our journey, we promise that we will continue providing added value to our customers, employees, industry and society in the upcoming periods. I would like to thank our customers, employees and business partners.

## About Seco Engineering

SECO Engineering has built a strong reputation for delivering a quality service, on time, and at a competitive price. We pride ourselves on being skilled and experienced in all aspects of engineering construction and this, combined with our extensive knowledge of Qatar market, has established us as major players in this industry. Our commitment to innovation and excellence invariably results in a successfully completed project for both contractor and client. We understand and promote the idea of working as a partnership with

our clients to ensure their goals are met. At Seco Trading and Services WLL, we never rest upon our laurels and are passionate and driven to continue the high levels of customer satisfaction we have achieved over the past years. We undertake a variety of projects for a wide range of cliental from small private developments to large Government projects. Our unique and flexible project management systems ensure that a positive outcome is achieved regardless of size or nature of the project.

---

## Product management

As hundreds and thousand of products are launched in construction and building industry every year, it will be a difficult task to choose right product for various projects. As our experts constantly monitor the local and global market, the task to deliver the right product to our esteemed customers is safe in our hands.

---

## Competitiveness

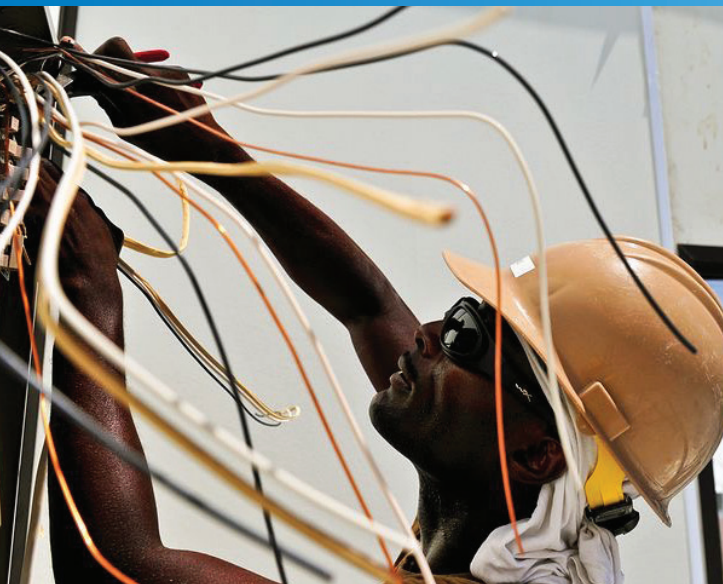

With all our service and quality we can still offer a competitive price, that bring value and money to your project. It's a new world when it comes to commercial, architecture and building construction. No longer is the focus only on expert craftsmanship, innovative design and attention to detail. Rather all eyes are examining the process itself, material used, and rest of all impact of construction in the environment.

---

## Technical expertise and support

Expert technocrats at work to provide end to end solutions in general construction, water proofing, repair/rehabilitation, flooring protection, fitout jobs etc.. Whether you are in the initial stage of projects or completion stage we can provide you assistance in trouble shooting and corrective measures. For all your engineering and trading related queries we will try our best to solve the issue without hindering your work flow
